CAREER SUMMARY

Results-driven Software Engineer specializing in trading automation, custom indicators, algorithmic strategies, and API-based auto-bot architectures. Proficient across key trading platforms including NinjaTrader, TradingView, and MetaTrader (MT4/MT5), with deep expertise in WebSocket/REST API integrations, Telegram/Discord live signal routing, and rigorous backtesting pipelines. Adept at transforming complex proprietary trading workflows into robust, executable code setups.

TECHNICAL SKILLS

Languages & Frameworks:	Python, C#, Pine Script, Web Development basics
Trading Platforms:	TradingView, MetaTrader 4/5 (MT4/MT5), NinjaTrader
APIs & Exchanges:	IBKR, BitMart, BitUnix, Coinbase, Postman, REST/WebSockets
Automation & Tools:	Auto-Bot Development, Telegram/Discord Signal Webhooks, Git/GitHub, VS Code
Trading Concepts:	Options strategies (Iron Butterfly, multi-leg setups), Backtesting vs Live testing
AI Knowledge:	Machine Learning basics, LightGBM, AI-assisted development tools

PROFESSIONAL EXPERIENCE

Software Engineer
Feb 2025 – Aug 2026

Kavin Global Technologies Private Limited
Chennai, India (Remote)

- Architected, debugged, and launched automated workflows and live API-driven trading bot infrastructures.
- Engineered reliable custom indicators and multi-timeframe strategies across TradingView (Pine Script) and MetaTrader.
- Integrated secure low-latency REST and WebSocket APIs linking local algorithmic infrastructure with international exchanges including IBKR, BitMart, BitUnix, and Coinbase.
- Built seamless automated signal webhooks using Telegram and Discord for instant, automated live trade execution.
- Programmed complex derivatives workflows encompassing Iron Butterfly execution models and customizable multi-leg option setups.
- Conducted extensive algorithmic backtesting and optimized continuous live dry-run validation structures.
- Optimized code delivery timelines by implementing advanced AI-assisted generation and automated debugging methodologies.
- Managed technical communication and bilingual product documentation pipelines (English/Tamil).

Prior Multidisciplinary Roles
2017 – 2022

Production Supervisor / Fabrication Technician / Data Entry

- Developed baseline expertise in systematic workflow management, independent technical troubleshooting, cross-team communication, and high-accuracy data coordination under strict milestones.

EDUCATION

Bachelor of Science in Information Technology (BSc IT) Graduated: June 2017

Kovai Kalaimagal College (Bharathiar University) Coimbatore, India

Relevant Coursework: Data Structures, Database Management Systems (DBMS), Web Development, Software Testing Automation Basics.

PROFESSIONAL CERTIFICATIONS

- Foundational C# with Microsoft – FreeCodeCamp.org (June 2024)
- Scientific Computing with Python – FreeCodeCamp.org (June 2024)
- Responsive Web Design – FreeCodeCamp.org (June 2024)
- Python Fundamentals for Beginners – Great Learning Academy (June 2024)
